

## Step 7: Viewing your story

When your story is built and saved, the **Completing Photostory 3 for Windows** page will appear. You can view your newly created story or begin a new story from here. To see what you have created, click **View your story**. Windows Media Player will open and your story will begin to play.

Now that you have created your first photo story, it's time to start a new story. This time, add your own pictures and music to create stories to share with your friends and family.

This photo is a screen shot from Microsoft's Photostory 3 software.
